

FILE SHARING

| ## OVERVIEW

S.EE File Sharing allows you to upload and share files with a short, shareable link. Perfect for sharing images, documents, audio, video, and other files.

| ## UPLOAD FILES

> QUICK UPLOAD (DRAG & DROP)

1. Log in to <https://s.ee/user/dashboard> [1]
2. Click **Sharing > Files** in the left sidebar or go directly to <https://s.ee/user/files/> [2]
3. Drag and drop files or folders into the **Drag & Drop** window
 - └ You can also click the window to browse and select files
 - └ Uploading a folder will upload all files within it
4. Files will be shared with the default domain and a random slug

> ADVANCED UPLOAD (CREATE FILE)

For more control over your file share:

1. Click **Create File** button
2. Configure your settings:
 - └ **Domain** - Select your preferred domain for the share page
 - └ **Custom Slug** - Set a custom URL slug
 - └ **Other options** - Tags, expiration, etc.
3. Select your file and upload
